1. **Lack of Tourism Human Resources**
   In the process of tourism marketing has been done, the Indonesian state still relies on human resources Jakarta tourism from mainland regions less direct role of sons and daughters of the Thousand Islands. This is because they still lack the ability of public relations society island with potential tourists. During this time the Thousand Islands tourism marketing more focused on how the viewpoint of people outside the island are attracted to one thousand islands. Without seeing the standpoint of its own citizens Thousand Islands on the characteristics of the local community does tourism marketing area.

2. **Lack of Role of Media**
   Society at large is still very trusting what the news media provide. In this case the mass media as a window to the outside of the island residents less cooperative in bringing news of the island. As in the period December 2018 - January 2019 after the tsunami that strikes Tanjung Lesung media tout the dangers of playing or be around shoreline. The media appealed to the public not to approach the coast. Many of the mass media were raised that the Sunda Strait tsunami resulted in high waves in the Thousand Islands.
   It is impacting the number of potential tourists who are reluctant to even canceled a planned trip to the Thousand Islands region for fear. Whereas in fact in those seasons obak in the Thousand Islands is a reasonable height because it represents the arrival times of the west wind. According to this writer is one of a lack of media's role in shaping the good image of the Thousand Islands.

(2) Then, from the Human Resources support is Abang None Jakarta and the Thousand Islands Thousand Islands Maritime Women Men should Dept. of Tourism and Culture of Thousand Islands area is more stringent in its election. Instead, participants of technical assistance or training related to tourism continues to be accompanied by the knowledge that is given can still helpful and assisted when the participants need help.
